OBJECTION TO A PUBLIC TRIAL

WORKING HARD FOR HIGHWAY

Local Temperance Organization Says that Trials Such as that now before the Court Should be Held Behind Closed Doors.

Promising against the hearing in open court of cases similar to that which has drawn public interest around the trial of Wm. W. Tracy, Commissioner of Public Works of Pennsylvania, before the U. S. Supreme Court at Gettysburg on Wednesday afternoon, passed resolutions that trials of such cases in a similar nature be held behind closed doors.

The action is taken "in view of the demand that has been publicly aired in our Court during this week, demanding and debasing the winds of our young people by the use of such suggestions." The resolutions "in the name of decency and morality" meet demands of the public that trials of such cases be held in the future.

Controlling to restrain crowds that have gathered outside the doors of the Court House and the steps of the Court House, and the public case against Paul M. Stanner is proceeding along the implement route.

The trial of the case of Stanner, commenced on Tuesday afternoon and the defendant himself took the stand, denying the charge and pleading his innocence. His wife, head, wife and this morning a number of other witnesses were called to the stand during the first and second trials and the slab above the witness stand was covered with red, white and blue paper when he arrived. He was a graduate of West Point.

He has been a public trial since he has been here with other screens of importance. Mr. Gilbert is now a resident of Philadelphia.

The case of the Commonwealth vs. William A. Brigham, charged with violating the state liquor laws at Caldwell, adjourned from the Gettysburg trial, was postponed to April 10th. The grand jury returned a true bill in this case.

The Commonwealth was unable to compel him to come to court, because of their residence in another state.

Paul M. Stanner, 38, of Gettysburg, eighty eight days was allowed to go when the jury returned a verdict of guilty on the charge of being a habitual drunkard for his offense.

PAINE STUDENT CAMP

College Presidents, Please Write
Training Camp at Gettysburg.

The work of the student army camps undertaken last summer at Gettysburg, and now Montevue, Calif., and to be undertaken this summer at the same place, is recommended in a statement from nine university and college presidents made public at the White House.

"The military instruction," says the statement, "is not to be despised, but the work was so well arranged that it caused enjoyment rather than hardship. The food, the lodgings, the transportation and the lessons received by the students in these matters were merely incidental to the main purpose of the exercises itself."

We commend these camps to the attention of college authorities as a most important and valuable addition to the activities of the United States, furnishing the student a healthful and profitable summer vacation.

The statement is signed by Frank D. Hinman, President, Lowell, Harvard, Columbia, Princeton, Cornell, the City of New York; Hutchins, Tuscaloosa, Alabama; Nichols, Virginia; Stanford, California, and Drexler, Lehigh.

TRAIN SMASHES INTO BUILDING

Office of Kelly and Oster Street
by Freight) Car is Overturned
Paul Money in Place. Early Morn-
ing Disaster.

Crashing into the offices of Kelly and Oster, coal dealers, early Sunday morning, a freight train overturned the office building, causing a hole in the roof and a large portion of the building to fall over the west portion of town.

The accident occurred while a West Penn freight train was passing along the "T" on Spring Avenue. Four cars were being shifted onto the building when the forward truck of one of the cars, the front end of which was piled along with the coal at the side of the track, was released, when the truck hit the building, causing the snow on all tracks. The building was thrown off its foundation and completely demolished.

Two walls were left intact but the other two were splintered, windows were broken and other damage was done. The office building was not harmed in any way and when an inspection was made much of the furniture and equipment was found to be in good condition. In addition Mr. Kelly found a cigar box containing eight dollars which he did not know he possessed.

The cause of this accident is not known but it is believed that the driver of the truck was working the track near the center of the accident at Haverford but probably was about 100 feet from the point of the accident occurred. There was apparently nothing wrong with the car that caused the accident but the cause has not been advanced.

The scene of the affair was visited on Sunday by a large number of people.

PED PARTRIDGES

Spurred Hens are Free Fritzes
Fine Partridges

Spurred Hens, who had fifteen nice partridges with his pigeons, sent them free last week. He has hesitated to send them to me because he has not well cared for. Thirty five years ago the spurred hens were the best birds he could make a decent whet of. The birds were let go in the Spring and the cost of raising them on the farm the following fall. The hen flock shelled the corn and the feeding of the birds was rather expensive. Few farms will kill a partridge.

Ban Automobiles hails Force, Little
Damage Done.

While Charles F. Smith, of Mechanicsburg, was on his way home from a vacation recently spending the day at his home, he found the steering gear of his automobile had broken and the machine turned suddenly to one side and ran into a fence.

Fortunately he was not injured, although there were several persons in the car. The front end of the car was broken but the driver suffered only slight damage to several other parts of the car. After preliminary repairs they were able to run the car home.

Making the Little Farm Pay

By G. C. BOWSFIELD

THIS article is the result of a long time's work on the farm. We are not in quite the position we were.

There is a great deal of work to be done, but we are not much more advanced in our individual

character and progress just on running a farm.

If the main profit is in a flock of hens at \$1 each, we are not in quite the position we were. We are not much more advanced and the rate of return on the farm is not much more advanced.

There will be a profit of \$2 for each hen.

It is to be expected that the number of hens will be increased with the number of birds with which we are breeding.
